## MANAGEMENT DISCUSSION AND ANALYSIS

The board (the “Board”) of directors (the “Directors”) of Kam Hing International Holdings Limited (the “Company”) hereby announces the unaudited condensed consolidated results of the Company and its subsidiaries (collectively, the “Group”) for the six months ended 30 June 2023 (the “Period”). The interim financial information is not audited but has been reviewed by the audit committee of the Company (the “Audit Committee”).

### Market Review

During the first half of 2023, the textile and garment business faced yet another challenging period marked by the adverse economic climate and the consequent dampened consumer sentiment, resulting from the complex macro environment of the ongoing geopolitical conflicts, continuous inflationary pressures, and the tightening fiscal intervention involving aggressive interest rate hikes carried out by the U.S. Federal Reserves.

The overall demand for textile and garment remained low over the Period. While the U.S. inflation rate gradually moderated from 6.4% to 3% in the first half of 2023, elevated interest rates curbed non-essential spending, including on fashion and apparel items. With disposable income diminishing and essential living costs on the rise, consumers favoured basic necessities like food and energy over discretionary purchases.

To counter supply chain disruptions experienced in early 2022 and in anticipation of sustained post-COVID demand for apparel in the U.S., brands and retailers strategically placed larger and earlier orders. However, as the rebound lost momentum in mid-2022, the industry confronted excessive inventory challenges by late 2022, prompting significant purchasing reductions in the initial half of 2023.

In China, the reopening of the consumption market led to resumed economic activities, but domestic textile competition intensified. As the export business faced headwinds, suppliers shifted focus to the local market, impacting manufacturers’ profitability.

Despite substantial pressure endured in the first half of 2023, the textile and garment industry exhibited a moderate recovery in the second quarter. Companies with robust fundamentals and sound financials are better equipped to navigate short-term challenges and seize demand revival in the foreseeable future.

## Business Overview

The first half of 2023 posed challenges for the Group, with macroeconomic factors significantly dampening orders and price, ultimately impairing the Group's profitability throughout the Period. Revenue for the Period amounted to approximately HK\$1,721.4 million, representing a year-on-year ("yoy") decrease of 24.5%. Gross profit decreased by 33.5% yoy to approximately HK\$153.9 million for the Period. Loss attributable to ordinary equity holders of the Company for the Period amounted to approximately HK\$24.7 million, which included one-off tax payment of approximately HK\$11.5 million for prior years' tax modification in Mainland China. The basic loss per share for the Period was HK2.8 cents, compared to a basic earnings per share of HK3.4 cents for the six months ended 30 June 2022.

During the first half of 2023, the two operating segments of textile business and garment business continued to contribute to the Group, accounted for approximately 84.4% and 15.6% of total revenue respectively. The textile business was mostly supported by the Group's two production sites in Enping and Nansha in China, while the factories in Cambodia mainly manufactured garment products.

The textile business was under immense pressure during the Period, primarily due to the high inflation rate and rising interest rates in the west, leading to subdued consumer sentiment. Oversupply in retail channels prompted reduced procurement and destocking among brand customers and retailers. To maintain production viability amid decreased industry demand, the Group accepted lower-margin orders, thus impacting its profitability. Although reduced cotton yarn costs and Renminbi depreciation partially eased production expenses for the Period, profitability remained affected.

Likewise, the garment segment confronted similar challenges of reduced demand. Alongside coping with fewer client orders, the Group's Cambodia plant experienced decrease in orders from U.S. customers who had redirected orders to Cambodia in response to supply chain disruptions during the first half of 2022.

## Business Overview (continued)

While navigating these challenges, the Group remains steadfastly committed to maintaining a strong balance sheet and ensuring financial agility. Notably, the Group maintained a stable inventory level at approximately HK\$862.2 million and cash and cash equivalent also increased by 23.5% to approximately HK\$1,327.2 million as at 30 June 2023 from the year end of 2022. In preparation for future development, the Group successfully obtained a green finance loan amounting to HK\$200 million during the Period, earmarked for establishing its environmental-friendly, integrated textile manufacturing base in Vietnam.

## Prospects

As we enter the latter half of 2023, the global economy grapples with persistent challenges of high inflation rates, interest rate hikes, geopolitical conflicts, and concerns about a potential U.S. recession. A positive note emerges, as July 2023's U.S. inflation rate remained at 3.2%, down from its mid-2022 peak. Though above the Federal Reserve's 2% target, this signals potential stability, with interest rate hike cycles nearing their peak. Labor market resilience shines, with unemployment nearing historic lows and job openings surpassing pre-pandemic levels with 1.6 vacancies per unemployed individual in July 2023. This fosters optimism for a favorable economic environment in the latter half of the year.

Entering the third quarter, the Group experiences an encouraging upturn in its order book. Retailers are preparing for the autumn and winter seasons, bolstering the Group's profitability with higher-margin orders. Market confidence aligns with anticipated improvements in consumer sentiment along with disinflation and labor market strength. These orders optimise profitability and enhance the product mix, while improving production efficiency and utilization.

## Prospects (continued)

To mitigate regional risks and maintain competitive labor costs, the Group has been actively expanding its manufacturing presence in Southeast Asia. In January 2023, the Group entered into agreements to acquire a land parcel in Nam Dinh Province, Vietnam for a strategic investment of approximately HK\$22.6 million. Combined with existing land, this integrated manufacturing base will cater for both garment and textile production. In Cambodia, the Group is undertaking a substantial factory expansion with its self-built production base. The Group will place a stronger emphasis on strengthening its research and development capabilities, enabling it to provide innovative and value-added services to its customers. With the new factory slated for operations in 2024, the Group is poised to solidify its market presence, further striving for sustainable growth in the dynamic and competitive market landscape.

Looking ahead, the Group remains prudent yet optimistic towards the development in the latter half of the year. The Group is committed to upholding operational excellence and enhancing its production and development capabilities to provide comprehensive one-stop solutions in textile and garment manufacturing. At the same time, the Group will continue to maintain its healthy financial position to strive for sustainable business growth, bringing greater returns to its shareholders.

## Financial Review

### *Revenue*

Overall sales turnover during the Period was approximately HK\$1,721.4 million, representing a decrease of approximately 24.5% (six months ended 30 June 2022: approximately HK\$2,281.1 million). The decrease was mainly attributable to the decrease in sales volume and amount due to the low demand for order since the second half of year 2022. The Group is suffering from the sluggish economic recovery in global markets. Also, there has been a change in consumer behavior on their spending proportion in basic necessities. Consumers are spending less on fashion and apparel items.

## Financial Review (continued)

### *Gross Profit and Gross Profit Margin*

Gross profit during the Period was approximately HK\$153.9 million, representing a decrease of approximately 33.5% (six months ended 30 June 2022: approximately HK\$231.4 million). Gross profit margin decreased to approximately 8.9% (six months ended 30 June 2022: approximately 10.1%). This was mainly attributable to the decrease in unit selling price and reduction in production volume. The competition in China and sluggish global market demand all affected the gross profit margin of orders.

### *Other Income and Gains, Net*

Other income and gains, net during the Period of approximately HK\$40.7 million (six months ended 30 June 2022: approximately HK\$24.4 million) mainly comprised income received from provision of sewage treatment of approximately HK\$10.4 million (six months ended 30 June 2022: approximately HK\$12.0 million), fee income from freight handling services of approximately HK\$2.9 million (six months ended 30 June 2022: approximately HK\$4.4 million), subsidy income of approximately HK\$9.6 million (six months ended 30 June 2022: approximately HK\$4.5 million), bank interest income of approximately HK\$14.8 million (six months ended 30 June 2022: approximately HK\$0.9 million). The remaining balance was mainly derived from sales of scrap.

### *Selling and Distribution Expenses*

Selling and distribution expenses during the Period decreased to approximately HK\$46.7 million (six months ended 30 June 2022: approximately HK\$63.0 million). The decrease in expenses was in line with the decrease in sales amount.

### *Administrative Expenses*

Administrative expenses, including salaries, depreciation, customs declaration and other related expenses, slightly decreased to approximately HK\$157.3 million during the Period (six month ended 30 June 2022: approximately HK\$157.5 million). The pace of economic recovery in 2023 remains hindered by a combination of high interest rates and unpredictable geopolitical factors, creating constrains on the global economy. The Group continues to adopt a prudent strategy on cost control in order to save cost and improve efficiency.

## Financial Review (continued)

### *Other Operating Income, Net*

During the Period, other operating income, net was approximately HK\$38.7 million (six months ended 30 June 2022: approximately HK\$22.4 million), mainly comprising operating expenses on sewage treatment of approximately HK\$10.9 million (six months ended 30 June 2022: approximately HK\$12.2 million) and foreign exchange gain of approximately HK\$48.5 million (six months ended 30 June 2022: approximately HK\$35.4 million).

### *Finance costs*

Finance costs for the Period were approximately HK\$45.9 million (six months ended 30 June 2022: approximately HK\$21.3 million), comprising interest on bank loans of approximately HK\$37.5 million (six months ended 30 June 2022: approximately HK\$15.3 million), amortization of bank charges on syndicated loans of approximately HK\$2.8 million (six months ended 30 June 2022: approximately HK\$2.8 million), interest on trade loan and discounted bills of approximately HK\$5.2 million (six months ended 30 June 2022: approximately HK\$2.4 million) and interest on lease liabilities of approximately HK\$0.4 million (six months ended 30 June 2022: approximately HK\$0.8 million). The increase in finance costs was mainly due to the increase in interest rate during the Period.

### *Net Profit/Loss*

Net loss attributable to ordinary equity holders of the Company for the Period was approximately HK\$24.7 million (net profit attributable to ordinary equity holders of the Company for the six months ended 30 June 2022 was approximately HK\$29.5 million). Despite the Group's efforts to enhance efficiency and reduce costs, it is not sufficient to offset the impact of declining order volumes and gross profit margins.

## Financial Review (continued)

### *Liquidity and Financial Resources*

As at 30 June 2023, the Group's net current assets were approximately HK\$1,149.4 million (31 December 2022: approximately HK\$1,472.3 million). As at 30 June 2023, the Group had cash and cash equivalents of approximately HK\$1,327.2 million (31 December 2022: approximately HK\$1,074.6 million). The Group's net debt gearing ratio (i.e. net debts divided by the sum of equity and net debts) as at 30 June 2023 was approximately 40.3% (31 December 2022: approximately 35.9%). Net debts comprise all interest-bearing bank borrowings, accounts and bills payables, accrued liabilities and other payables, an amount due to an associate, bank advance for discounted bills and lease liabilities less cash and cash equivalents. Equity comprises owners' equity as stated in the consolidated financial statements.

### *Financing*

As at 30 June 2023, the Group's long-term loans were approximately HK\$644.5 million (31 December 2022: approximately HK\$966.7 million), primarily made up of the syndicated loan. The decrease in long-term loans was mainly due to reclassification of scheduled repayments of syndicated loan due within 12 months to current liabilities.

### *Interim Dividend*

The Board has resolved not to recommend the payment of an interim dividend for the Period (six months ended 30 June 2022: Nil).

## Financial Review (continued)

### *Foreign Exchange Risk and Interest Rate Risk*

Approximately 78.8% (six months ended 30 June 2022: approximately 80.4%) of the Group's sales was denominated in U.S. dollars. The remaining sales were denominated in Hong Kong dollars and Renminbi. The majority of the Group's costs of sales were denominated in U.S. dollars, Hong Kong dollars and Renminbi. The Group is therefore exposed to foreign exchange risks arising from currency exposures, primarily in respect to the Renminbi. The exchange rates of other currencies were relatively stable throughout the Period and immaterial on our cost structure. The management closely monitors the foreign exchange movements and determines the appropriate hedging activities when necessary. The Group's borrowings were mainly maintained at a floating rate basis. The management will pay attention to the interest rate movement and employ necessary hedging instruments in a prudent and professional manner.

As at 30 June 2023, the Group had capital commitments of approximately HK\$21.9 million (31 December 2022: approximately HK\$48.6 million) in property, plant and equipment and right-of-use assets and approximately HK\$199.3 million (31 December 2022: approximately HK\$221.7 million) in construction of new manufacturing facilities. All are funded or will be funded by internal resources.

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

### 1.1 BASIS OF PRESENTATION

The interim condensed consolidated financial statements for the six months ended 30 June 2023 have been prepared in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants and with the disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (“Listing Rules”). These condensed consolidated financial statements are unaudited but have been reviewed by the Company’s audit committee.

### 1.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The accounting policies adopted in the preparation of the interim condensed consolidated financial information are consistent with those applied in the preparation of the Group’s annual consolidated financial statements for the year ended 31 December 2022, except for the adoption of the following revised Hong Kong Financial Reporting Standards (“HKFRSs”) for the first time for the Period’s financial information.

Amendments to HKAS 1 and HKFRS Practice Statement 2	<i>Disclosure of Accounting Policies</i>
Amendments to HKAS 8	<i>Definition of Accounting Estimates</i>
Amendments to HKAS 12	<i>Deferred Tax related to Assets and Liabilities arising from a Single Transaction</i>
Amendments to HKAS 12	<i>International Tax Reform – Pillar Two Model Rules</i>

The nature and impact of the new and revised HKFRSs that are applicable to the Group are described below:

## 1.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (continued)

- (a) Amendments to HKAS 1 require entities to disclose their material accounting policy information rather than their significant accounting policies. Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. Amendments to HKFRS Practice Statement 2 provide non-mandatory guidance on how to apply the concept of materiality to accounting policy disclosures. The Group has applied the amendments since 1 January 2023. The amendments did not have any impact on the Group's interim condensed consolidated financial information but are expected to affect the accounting policy disclosures in the Group's annual consolidated financial statements.
- (b) Amendments to HKAS 8 clarify the distinction between changes in accounting estimates and changes in accounting policies. Accounting estimates are defined as monetary amounts in financial statements that are subject to measurement uncertainty. The amendments also clarify how entities use measurement techniques and inputs to develop accounting estimates. The Group has applied the amendments to changes in accounting policies and changes in accounting estimates that occur on or after 1 January 2023. Since the Group's policy of determining accounting estimates aligns with the amendments, the amendments did not have any impact on the financial position or performance of the Group.
- (c) Amendments to HKAS 12 *Deferred Tax related to Assets and Liabilities arising from a Single Transaction* narrow the scope of the initial recognition exception in HKAS 12 so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences, such as leases and decommissioning obligations. Therefore, entities are required to recognise a deferred tax asset (provided that sufficient taxable profit is available) and a deferred tax liability for temporary differences arising from these transactions. The Group has applied the amendments on temporary differences related to leases as at 1 January 2022. The amendments did not have any impact to the Group.

## 1.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (continued)

- (d) Amendments to HKAS 12 *International Tax Reform – Pillar Two Model Rules* introduce a mandatory temporary exception from the recognition and disclosure of deferred taxes arising from the implementation of the Pillar Two model rules published by the Organisation for Economic Cooperation and Development. The amendments also introduce disclosure requirements for the affected entities to help users of the financial statements better understand the entities' exposure to Pillar Two income taxes, including the disclosure of current tax related to Pillar Two income taxes separately in the periods when Pillar Two legislation is effective and the disclosure of known or reasonably estimable information of their exposure to Pillar Two income taxes in periods in which the legislation is enacted or substantively enacted but not yet in effect. Entities are required to disclose the information relating to their exposure to Pillar Two income taxes in annual periods beginning on or after 1 January 2023, but are not required to disclose such information for any interim periods ending on or before 31 December 2023. The Group has applied the amendments retrospectively. The Group is currently assessing its exposure to Pillar Two income taxes.

## 2. OPERATING SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their products and services and has three reportable operating segments as follows:

- (a) the fabric segment engages in the production and sale of knitted fabric and dyed yarn;
- (b) the garment segment engages in the production and sale of garment products and provision of related subcontracting services; and
- (c) the “others” segment includes the provision of sewage treatment services, the provision of air and ocean freight handling services and property development.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resources allocation and performance assessment. Segment performance is evaluated based on reportable segment profit/loss, which is a measure of adjusted profit/loss before tax.

Intersegment revenue and transfers are transacted with reference to the selling prices used for sales made to third parties at the then prevailing market prices.

In the opinion of the directors, the Group has retained the substantial risk and rewards, which include default risks relating to such Endorsed Bills, and accordingly, it continued to recognise the full carrying amounts of the Endorsed Bills and the associated accounts payables settled. Subsequent to the Endorsement, the Group did not retain any rights on the use of the Endorsed Bills, including the sale, transfer or pledge of the Endorsed Bills to any other third parties. The aggregate carrying amount of accounts payables settled by the Endorsed Bills during the Period to which the suppliers have recourse was RMB12,250,000 (equivalent to HK\$13,315,000) (31 December 2022: RMB1,670,000 (equivalent to HK\$1,897,000)) as at 30 June 2023.
